52798 Stringtown Rd

PO BOX #73

Myrtle Point, OR 97458.

Office: (541) 572 – 5228 / Fax: (541) 559 - 1167

# What to Expect (Information Sheet)

## Step 1. Choose your stone

### QUARTZ

- ✚ Quartz is an engineered stone
- ✚ It has a more uniform color and pattern

### GRANITE

- ✚ Natural stone
- ✚ Colors and pattern vary and are not uniform

## Step 2. Get a quote

When you visit our show room it is helpful to bring with you a sample drawing with measurements of your countertop. We will calculate the square footage and give you a quote.

## Step 3. Contract & 50% down payment

We will draw up a contract. **50% of the total balance is due upon signing the contract.** Once you have paid and signed your contract, we will order your slabs and have them delivered to the shop.

## Step 4. Templating

**When your slabs have arrived in the yard and your base cabinets are installed in their final location,** we will put you on the schedule for a template. You, your contractor, or a representative need to be present to answer any detail questions that may come up at the time of template. Also, you must have on site: your sink, faucet, and any appliance spec sheet that the stone will need to be cut for to achieve an accurate template. We will need at least one working electrical outlet close by.

## Step 5. Fabrication & Installation

**Fabrication of stone will be dependent on the square footage of your project. The remaining 50% of your balance is due the day of installation.** We accept all forms of payment (check, cash, Venmo, or credit/debit), however, there is a 3.57% processing fee for credit/debit card payments.
